

VOLUME ALLOWANCE FOR STANDARD GRANT APPLICATIONS

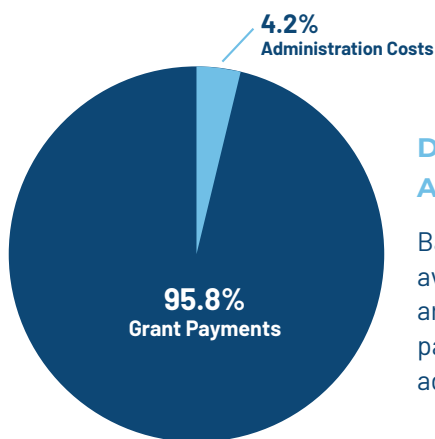

Emergency Assistance Foundation utilizes a variable fee structure based on fund activity to keep costs low, and our basic fees have not increased since our inception. We remain committed to minimizing fees so we can maximize the dollars sent to individuals in need.

VOLUME ALLOWANCE FOR STANDARD GRANT APPLICATIONS

Our volume allowance decreases the fee per standard grant application based on the average number of verified applications per month throughout each quarter. At the beginning of every quarter, we will review the fund's previous three months of applications. If the fund has received an average of 150+ applications per month for that quarter, we will return US \$25 per verified application to the fund's balance (see example below).

Avg. # Monthly Verified Standard Grant Applications per Quarter	Volume Allowance per Application	Net Fee per U.S. Application	Net Fee per Non-U.S. Application
150+	US \$25	US \$175 (vs. US \$200)	US \$225 (vs. US \$250)

EXAMPLE: If the fund receives 134 verified applications in January, 192 applications in February, and 156 applications in March, the average per month across the quarter would be 160, and in April the fund would receive a credit of $US \$25(134+192+156) = US \$25(482) = US \$12,050$.

DONATIONS DOLLARS AT WORK

Based on EAF's four-year average, 95.8% of donations are allocated to grant payments, while 4.2% go to administrative costs*.

FUND TAX BENEFITS

FOR DONORS:

All donations made to the fund are **tax-deductible** in the United States.

FOR APPLICANTS:

Applicants receive **tax-free grants** in the United States.

*Each Fund's individual percentage of administration costs will differ based on donation contributions, grant size, chosen grant criteria, and program type.
